PUT BODY ON TRACK

Giles County Negro Confesses to Horrible Crime

The following is from the Nashville Tennessean of Sept. 14th: Mr. Ewing is well and favorably known here, having worked on the Henderson Division for quite a while. Mr. Ewing will be a candidate for Sheriff of Hopkins County next term and will doubtless make a strong one.

Earl Smith, a negro boy, confessed to R. T. Ewing, a special agent for the Louisville & Nashville railroad, Saturday morning that Friday he first killed Fred Barnes, a watchman at the big L. & N. tunnel below Leesters, Tenn., in Giles county, with a shotgun, then placed his body on the track near the tunnel, where it was cut to pieces 30 minutes later by a freight train. The confession was made before a coroner's jury, empaneled by Squire Geo. Neal at Aspen Hill, and the negro was remanded to jail without bond.

When the body was first found it was thought that the train caused the old negro's death, but after Mr. Ewing and Deputy Sheriff A. J. Powell, of Giles county, had worked on the case, they found a shotgun wound over the heart. Suspicion was directed towards the Smith negro, who had a quarrel with the watchman Friday morning. Smith lived in a house belonging to Barnes, and Barnes had ordered him to move. Smith confessed that he shot the negro and left him on the track screaming for help. North-bound freight No. 76 ran over him.

DAM NEAR EVANSVILLE WILL NOT BE BUILT SOON

Congressional Action Delays Action on New Work Indefinitely

Evansville, Ind.—The action of the Democratic leaders in Congress Saturday in deciding to eliminate the \$3,000,000 appropriation for Ohio river improvements in the appropriations bill will mean that work will be delayed on the proposed Ohio river dam near the mouth of Cypress creek, a few miles above Evansville. The action of Congress is not expected to affect government dam No. 48 that is being built across the river 17 miles below this city. Work on dam 48 was started about two years ago and is now being actively pushed.

CUT WORMS AT WORK IN HOPKINS

Very Active in Western Part of Hopkins County, Laying Waste Whole Meadows

Reports from the Nebo section are to the effect that the cut worms are playing havoc with meadows. A fine meadow of H. R. Cox has been literally stripped and likewise one of Ez Tapp's meadows near Manitou. The worms seem to be traveling in an easterly direction and it is probable that the entire county may be threatened with these pests.

Farmers in the western section are ditching and doing everything they can to prevent the invasion. It would be well for our farmers in all sections to be prepared and take all necessary preventative measures.

The October Woman's Home Companion

One of the special features of the October Woman's Home Companion is a call to American women to support American industries. The idea is that in the past American women have preferred imported goods and that in the present crisis they have a splendid chance to show real patriotism by supporting our American industries. The author of the article is Ida M. Tarbell.

Another special war feature of great interest is a French woman's personal recollections of the siege of Paris at the close of the Franco-Prussian war.

The new dances are also described with illustrations in color by Troy Kunney; Ralph Waldo Trine writes entertainingly under the title, "When is Youth—What After Youth?"; Laura Spencer Porter gives splendid advice under the heading, "How to Start Your Library"; Anna Steese Richardson, director of the Better Babies Bureau of the Woman's Home Companion, contributes news of the movement and suggestions under the heading, "What Every Mother Wants to Know"; and a minister of the Gospel goes on with his series of articles relating his pastoral experiences with women.

The fashion department conducted by Grace Margaret Gould, fashion editor of the Woman's Home Companion, is filled with the latest news and suggestions, beautifully illustrated and admirably adapted to the practical needs of women.

Fiction of singular interest and power is contributed by Grace S. Richmond, Mary H. Vorse, Margarita Spalding Gerry, Fannie Heaslip Lea, Kathleen Norris and Temple Bailey.

The regular departments—About People, Tower Room, Entertainment, Young People's Cooking and House-keeping—complete an entertaining and practically helpful number.

Cheapest accident insurance—Dr. Thomas' Electric Oil. For burns, scalds, cuts and fever. All druggists sell it. 10c and 50c. 10c.

HON. WM. J. COX

Formally Announces for Circuit Judge

Elsewhere in this issue will be found the formal announcement of William J. Cox as a candidate for circuit judge of this district, subject to the action of the democratic primary.

Mr. Cox was born in Hopkins county, about five miles east of Madisonville. His father died when he was only one year old and he was left to fight the battles of the world. He worked on the farm and began teaching school at the age of sixteen. Between times he attended school and secured an education. Being ambitious he took up the practice of law and for the past twenty years has been recognized as one of the leading members of the Madisonville bar.

The only office Mr. Cox ever held was that of representative from Muhlenberg county in the legislature. At the time he was elected he was teaching school and was urged by the democratic committee to accept the nomination. He was elected in a strong republican county and served with credit in the states lawmaking body.

Mr. Cox is a Christian gentleman, suave in manner, popular with all who know him and is splendidly qualified to discharge the duties of the office. He is a self-made man and has risen by dint of his own merit and industry to a position of honor and confidence among his fellowmen.

There can be no doubt that Mr. Cox will have a strong and enthusiastic following at home and friends in the lower counties have assured him that he will receive a flattering support there.

Diarrhoea Quickly Cured

"My attention was first called to Chamberlain's Colic, Cholera and Diarrhoea Remedy as much as twelve years ago. At that time I was seriously ill with summer complaints. One dose of this remedy checked the trouble," writes Mrs. C. W. Florence, Rockfield, Ind. For sale by all dealers.

THE PUBLIC DEFENDER

The Public Defender idea which Los Angeles introduced some time ago seems to be catching on—and fast. Generally, the East is slow to adopt anything which originates in the West, but the idea of having a court official to defend, as well as having one to prosecute, seems to appeal to the Easterner's sense of fair play, with the result that in all probability a bill will be introduced in the Legislature of the State of New York providing for the appointment or election of a judiciary official of this character in certain municipalities.

Hon. Mayer C. Goldman, a member of the New York City bar, is the leader of the movement in the East in favor of a Public Defender, and has succeeded in interesting both the daily press and a number of the influential magazines.

CONTRACT FOR NEW CHRISTIAN CHURCH LET

Yaqui Indians Shoot Gold Bullets.

It is not for their aseptic qualities that the Yaqui of Sonora, Mexico, are casting the gold precipitates recently captured from an American pack train into bullets, but because to them bullets are more valuable than gold. The Americans escaped when Yaqui attacked the pack train, but several American packers were killed. The fight occurred at Agua Nuevo, a pumping station from La Colorado, about sixteen miles from there. The value of the gold amounted to \$50,000.

It is reported that soldiers of the Mexican troops are exposing themselves to the Yaqui fire, in the hope of clearing enough by the operation to pay the doctor and leave a neat profit besides.—San Francisco [Cal.] Chronicle.

Current Information

Answering report that Interstate Commerce Commission intends to issue public statement charging railroads with being "derelict in their duty" in not preparing new traffic to get what benefit they might out of recent eastern rate decision, Newman Erb says the railroads have been doing everything in their power to prepare the new freight tariffs, and that "the Interstate Commerce Commission knows it; and knows that an immense amount of work is involved." C. F. Daly, vice-president of the New York Central Lines, says roads not only have extra force of men working day and night to prepare the new tariffs as soon as possible, but have also been in frequent conference with Chairman Harlan of the I. C. C. to expedite the work.

Judge Elbert H. Gary, who arrived home from France Saturday, is quoted as saying he believes \$40,000,000 a day is conservative estimate of cost of the European war. "As the destruction of life will be so large and rapid," said the Judge, "it would seem as though the war must be sooner ended than in former times and under different conditions. The unfavorable effect upon the economic conditions of other nations, which will be realized sooner or later, is of great magnitude. The destruction of property aggregating billions of dollars in value will be felt throughout the entire world."

Washington hears that no reply has been received at the State Department to inquiry of Germany if she desires to discuss terms with her foes. Premier Viviani said: "Question of peace can be dealt with only by allies. France has no say individually in the matter."

Herald says so far as allies are concerned, there is said to be no "peace at any price" sentiment in high diplomatic circles. General belief is that Kaiser must abdicate and that England must insist on this prior to discussion of peace terms.

Returning tourists say there is grave danger of revolt in some German states if Kaiser's armies meet with continued reverses. Prussia is said to be the only state in the Empire that favored the war. Bavaria and Saxony strongly opposing it.

Premier Asquith announced in House of Commons that no further steps will be taken with Irish home rule or Welsh disestablishment bills, for twelve months, or, in any event, until end of war.

Federal Council, in Berlin has forbidden slaughter of calves under 165 pounds live weight, and of cows under seven years old, for next three months, in effort to ensure meat supply for coming year.

Germany's supply of gasoline is reported to be running very short. Germany depends almost entirely on automobiles for transport. Russians have gained control of oil fields of Galicia.

Several leaders in Congress propose that steps be taken to reduce postage rates to countries of South America from five cents to two cents, to foster closer commercial relationship.

Queen Wilhelmina has accepted an offer of six of the richest men of Holland to give 10 per cent. of their fortunes to pay mobilization expenses, now running at about \$500,000 a day.

The Alexander ship bill, authorizing the Government to purchase and operate vessels in the foreign trade, has been held up, pending action on the war tax measure. The Alexander measure may be held over for another week.

Conference of Colorado coal operators will be held in Denver Saturday to consider President Wilson's proposal for three years' truce in miners' strike.

In preparation for long war Russian military officials are in Tokio, Japan, buying arms, ammunition and provisions in huge quantities.

INTERNATIONAL EXPOSITION

SAN FRANCISCO

To be Given the Most Popular Teacher in Hopkins County

WHO WILL BE THE LUCKY TEACHER TO WIN THIS WONDERFUL VACATION NEXT YEAR?

The Bee has completed arrangements to send the most popular teacher on a four weeks' trip to the two big expositions in California next year, the Panama-Pacific International Exposition at San Diego. The Bee realizes that a trip of this kind will benefit our teachers greatly because 1915 will be a historic year, a red letter year not only in American History, but in the history of the world. An event of a lifetime—1915—marks the completion of the greatest achievement of man in the history of the world—the Panama Canal. The completion of this achievement will be celebrated in San Francisco by the greatest exposition the world has ever seen: The Panama-Pacific International Exposition, in which the countries of the world will participate on an unprecedented scale.

The free trip offered will be educational and instructive as well as entertaining. The routes traversed to the Expositions and return will be through the "Fairyland of the West"—a magnificent trip by rail across the continent, through scenic New Mexico and Arizona where are found Indian pueblos, petrified forests, snow-capped mountain peaks and titanic chasms. The Grand Canyon of Arizona is the world's most sublime scenic wonder, miles wide, a mile deep and painted in all the colors of the rainbow; the old missions in California, with their sandaled priests and Spanish customs; the Panama-California Exposition at San Diego; Los Angeles with its many attractive sights and Orange Groves; then the great San Joaquin Valley to San Francisco and the Exposition.

On the way back via Nevada, the Great Salt Lake and the Land of Mormons, Pike's Peak, and the mountains of picturesque Colorado with their awe-inspiring grandeur. The trip of a lifetime. From an educational standpoint, the trip is truly a wonderful one.

THE PLAN

Here is the plan the Bee has prepared for sending the most popular teacher on this four weeks' vacation. Beginning in this issue the Bee will publish nomination coupons for our readers to use in nominating their favorite teachers. Cut out these coupons, fill in with the name of the teacher you would like to have sent on this big trip. The nominations will be held open for three weeks. The names of the nominees will be published each week.

Each subscriber to the Special Clubbing Combination Offer will be entitled to Mileage Stamps. Each stamp represents one mile of the journey to San Francisco. Ten Mileage Stamps will be given with each subscription, these in turn can be given to your favorite teacher, who will be provided with an International Mileage Book and the teacher who succeeds in getting the largest number of the Mileage Stamps in her book by the close of the contest will be awarded the Free Trip to the Exposition.

To make it easy to get enough mileage stamps to win this great vacation trip, the Bee has arranged with four of the best and most widely read magazines, Woman's World, Household, People's Popular Monthly and Farm Life. We will offer a year's subscription to all four magazines, together with one year to the Bee, at the special price of \$1.25 for all five. Each order entitles the subscribers to ten Mileage Stamps.

Send the name of the teacher you have picked out to go on this vacation, then help her to earn the trip by having your friends subscribe for this big bargain and get as many Mileage Stamps as possible. Scholars, get busy and secure new subscribers for this remarkable combination clubbing offer. Help send your teacher to the Exposition.

RULES OF CONTEST

Any school teacher in Hopkins county can be nominated. Each name will contain nomination blanks. Fill in the name of your favorite and mail or leave the nomination blank at our office. Every subscription to the Special Combination Clubbing offer will entitle the subscriber to Ten Mileage Stamps to give to his favorite teacher. Mileage will be given for combination orders only; no mileage will be allowed for a separate subscription for any one of the five publications in the combination. Subscription blanks will be furnished to the contestants and their friends at this office.

There are no restrictions as to territory in securing combination orders and mileage. The date of the close of the contest will be announced later. Ample time will be given, as the Exposition does not open until February, 1915.

The teacher having the greatest number of stamps in her mileage book will be declared the winner. For any additional information address, Free Trip Exposition Bureau, c/o, Earlington, Ky.

Nominate your favorite teacher on this blank, then mail or leave at Bee Office.

A DRUNKARD'S WILL

The following is a will written by a drunkard dying in a New York hotel. It was found on a chair by his bedside after he had taken his life:

"I leave to society a ruined character and a wretched example; I leave to my parents as much sorrow as they can in their feeble state bear. I leave to my brothers and sisters as much shame and mortification as I could bring upon them; I leave to my wife a broken heart and a life of shame; I leave to each of my children poverty, ignorance, a low character, and the remembrance that their father filled a drunkard's grave, and has gone to a drunkard's hell.

LIFE INSURANCE COMPANIES

They Are Closely Observing Public Health Conditions

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing real healing and curative properties, would be a blessing to thousands.

Dr. Kilmer & Co., Binghamton, N. Y., who prepare Dr. Kilmer's Swamp-Root, the well known kidney, liver and bladder remedy, claim that judging from evidence received from druggists everywhere, who are constantly in touch with their customers, and also indisputable proof in the form of grateful testimonial letters from thousands of reliable citizens, this preparation is remarkably successful in sickness caused by kidney and bladder troubles. Every interesting statement they receive regarding Swamp-Root is investigated and no testimonial is published unless the party who sends it is reported of good character. They have on file many sworn statements of recoveries in the most interesting cases. They state that Dr. Kilmer's Swamp-Root is mild and gentle in its action and its healing influence is soon noticed in most cases.

Swamp-Root is purely an herbal compound and Dr. Kilmer & Co. advise all readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—50c. and \$1.00. However, if you wish first to test this great preparation sent 10 cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Earlington Semi-Weekly Bee.

The Oldest Bridge in Paris. The Pont Notre Dame is the oldest bridge in Paris. It was first built in 1413 in the reign of Charles VI., but it was carried away, together with the houses which lined it, by ice floes when the frost broke in 1499. A new bridge was begun at once under the direction of Jean Jocoande of Verona and was ready for traffic in 1507. On that bridge stood the famous picture shop of Gersaint, which had a sign-board specially painted for it by Watteau.—Westminster Gazette.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine life it has no equal. For ten years the Lydia E. The Man and the Mummy.

"This," said the guide who was piloting a bunch of tourists through Egypt as he pointed to a mummy, "was a high priest, the wisest man of his day. He lived to a great age."

"Was his last illness fatal?" queried the wag of the bunch.

"Of course it was," answered the guide, with a look of pity at the other. "That's queer," rejoined the waggy person. "His present appearance would seem to indicate that he was permanently cured."—Chicago News.

Sold Hogs by Telephone

A South Carolina farmer had a large number of hogs which were ready to kill. The weather was so warm that killing was out of the question.

He went to his telephone, called a dealer in Columbia over Long Distance and sold his hogs at a good price. He then called the local freight office and arranged for shipment.

The telephone is now a necessity on the farm. You can have one on your farm at small cost.
